# Thought Paper / White Paper Microservices

## Table of Contents

1. Eureka Discovery Services . . . 1
2. Spring Cloud API Gateway & Load Balancer & Filters . . . 1
3. Spring Cloud Bus . . . 1
4. API Security using KeyCloak Auth Server . . . 1
5. Implementing Spring Cloud Config . . . 1
6. Microservices and Persistence Layer using MySQL, H2 . . . 1
7. Microservices Communcations . . . 1
8. Microservices Communication - Circuit Breaker and Retry . . . 2
9. Distributed Tracking with Sleuth and Zipkin . . . 2
10. Aggregating Log Files with ELK Stack . . . 2
11. Containerization of Microservices . . . 2
12. Event Driven Microservices Architecture using Kafka Eco System . . . 2
13. Distributed Microservices Transaction Management using SAGA Pattern and AXON Framework . . . 2
14. Deploying in Multiple Environments: Dev, Test, Prod . . . 2

## 1. Eureka Discovery Services

## 2. Spring Cloud API Gateway & Load Balancer & Filters

## 3. Spring Cloud Bus

## 4. API Security using KeyCloak Auth Server

## 5. Implementing Spring Cloud Config

## 6. Microservices and Persistence Layer using MySQL, H2

## 7. Microservices Communcations

## 8. Microservices Communication - Circuit Breaker and Retry

## 9. Distributed Tracking with Sleuth and Zipkin

## 10. Aggregating Log Files with ELK Stack

## 11. Containerization of Microservices

## 12. Event Driven Microservices Architecture using Kafka Eco System

## 13. Distributed Microservices Transaction Management using SAGA Pattern and AXON Framework

## 14. Deploying in Multiple Environments: Dev, Test, Prod
